

## Proposal to Support Mission of NWRSF

Propose that 2009 is the year of the new skater as encouraged by the USARS at their coaches and judges conference. It is felt if more new skaters participate the organization can strengthen and increase the number of competitive skaters.

To that end: The Northwest Roller Skating Foundation would pay the initial entry fee at the NW Regional Championship for B/C skaters using the following criteria:

- Age 18 or below
- Registered for a B/C event
- Skater has a financial need to allow their continued involvement
- Limit to a maximum of 2-3 skaters per skating club

It is felt that skaters who will be competing in the Regional Championships have demonstrated a level of commitment having continually paid club dues, taken lessons and practiced between lessons.

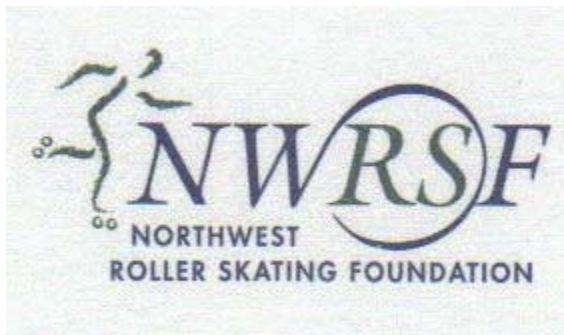

It is felt that this gesture would be an appropriate way to support the mission of “foster the sport of competitive amateur roller skating in the Northwest Region”.

It is felt that individual grants have not necessarily reached all clubs for benefit of skaters

Skaters would be asked to complete an application and submit through their coach, with the coaching staff identifying the applications with their priority ranking (1,2,3 etc) on the application. The application would be reviewed and the coaching staff would be notified, by mail and e mail, so that they could inform their skater of the grant from the Northwest Skating Foundation.

The Foundation would write a check to the Regional Organization for the identified skater to cover the first event ( last years cost \$40).

This grant process would include art and speed.
